Water Department Supervisor Fred Booher reminded residents that before allowing anyone into their homes they should ask to see proper ID and that all village water department employees carry photo I.D.’s and wear Village of Mineola uniforms. If for any reason the resident is not

comfortable with what is presented, they should call Village Hall and verify their employment before letting them into their homes.

Supervisor Fred Booher gave an overview of the Water Department’s Main Control Center and stated that the water department recently requested an evaluation from our consulting engineer Dvirka and Bartlucci. The equipment that comprises our current control center is approximately 70 years old although still reliable and functioning well. As a result, Supervisor Booher recommended an upgrade to a modern supervisory control and data acquisition (SCADA) system which would enhance our ability to monitor and operate wells more efficiently. SCADA is next-generation technology and is the new industry standard.

Resolution No. 249-10

Resolved to authorize the Water Department to direct consulting engineer Dvirka and Bartlucci to prepare specifications for a public bid package for the upgrading of the Water Department Main Control Center to a SCADA system.

Village Attorney John M. Spellman stated that additional defendants from the methyl tertiary butyl ether (MTBE) lawsuit have offered to settle their cases and that the amount of those settlements to the Village of Mineola (net of legal fees) would total \$13,084.81.

Resolution No. 251-10

Resolution to settle the MTBE lawsuit (Incorporated Village of Mineola v. AGIP Inc., et al., No.03CV-1005 (S.D.N.Y.)) against certain remaining defendants in the amount of \$13,084.81.
